gret the violent death of our old and highly esteem-

ed citizen, Col. D H. Twogood. From some cause,

Mr. T., who was present at a meeting at Banks'

Arcade on Saturday evening last, supposed that Mr. L. C. Hornsby, also present, had acted in an

unbecoming manner. The parties met, words pass-

ed, and Mr. T. was felled to the floor, and stamped

upon the head and breast, at the entrance of the

gallery for the accommodation of the ladies. He

Literary Notices.

BANGS'S LIFE OF ARMINIUS .- Messrs. Harpe & Brothers have published a "Life of James Arminius," the celebrated advocate of the doctrine (called after him 'Arminian') of Universal Atone ment, in opposition to that of Unconditional Election. The author or compiler is the Rev. Dr. Bangs, a Methodist clergyman of this city, who holds a high rank in the denomination to which he belongs. The volume is well print. ed and tastefully bound, and is embellished by a portrait of Arminius. We consider it a valuable contribution to our Theological Literature.

GIBEON'S DECLINE AND FALL OF THE RO-MAN EMPIRE, No. VI. with Milman's Notes, is just published by Harper & Brothers.

Ion,' a Tragedy by Thomas Noon Talfourd. Fazio,' a Tragedy by Rev. H. H. Milman, and 'Animal Magnetism,' by Wm. Lang, have just been published by Jas. Mowatt & Co. 174 Broadway.

PALMER'S COMPUTING SCALE .- We have been shown a copy of a Mathematical Scale, lately pubtished in Boston, under the above title. It is, in our opinion, an extremely ingenious and valuable work, and one that will eventually have an extensive circulation among our business men. It consists of a Logarithmic arrangement of numbers on two circles, one of which is made to revolve within the other. By this revolution, numbers and parts of numbers are multiplied and divided by each other, and all fractions changed and reduced; different currencies reduced to federal money; simple and compound interest calculated at any rate per cent .; questions answered in loss and gain, rule of three, proportion, and fellowship; numbers raised to squares, cubes, &c., and the square and cube root extracted; taxes apportioned; superficies, squares and solids measured; areas of circles; squares, ellipses and parallelograms given, &c. &c. All these can be accomplished by simply revolving a circular card. It is simple in its construction and easily understood, and must save an immense amount of time and labor among those who have much calculation to make. We understand from Mr. Ellis, the agent of the work, that it has had an extensive sale in Boston and its vicinity, and has received the unqualified approbation of both mathematicians and business men.

The Governor of Mississippi, in his late annual address to the Legislature, states that only one out of fifteen of the white population of that State can read! Bost. Frans.

This story has been going the rounds of the papers, and it is time it were stopped. It had very nearly got into our own paper, when we detected and expelled it. The Governor of Mississippi stated that one-fifteenth of the adults of that State could not read-which is bad enough, in all conscience—but when it is made fourteenfifteenths, it is time a halt were called.

SLAVES MANUMITTED-REMARKABLE CASE .-Some six years ago, says the Pittsburg Sun, Dr. Brisbane, then a resident of Charleston, South Carolina, being anxious to take up his residence in Cincinnati, sold his slaves, twenty-seven in number, and moved to the latter city. During of the Green Hills. his stay there he determined that he would redeem and liberate each slave he had sold. A short time since he went to Charleston, and at an expense of \$6,000 more than he received for the slaves, purchased them back again. He then put them on board of a vessel, and took them to Baltimore. At Baltimore he hired an extra conveyance for Pittsburgh, where he arrived on Saturday night last. On Sunday they were put on board of the Valley Forge, and started, with their benefactor, for Cincinnati. It is the intention of Dr. Brisbane to settle them comfortable on land which he has purchased in Hamilton County, O. thus not only giving them their freedom, but an advantageous start in life. It will be seen now, whether they can take care of themselves.

SEMINARY FOR PERSPECTIVE DRAW. ING AND PAINTING, No. 509 Broadway, New-York.

-MISS DAVENPORT would respectfully inform the citizens of New York, that she has opened an Institution, for instruction in those elegant arts, at 509 Broadway. Her method of teaching is new and entirely different from those commonly employed by teachers of these accomplishments; she has ecimens of improvement from her pupils, and testimonials from competent judges, to show that her efforts have been at-tended with complete success. She enables her acholars in a very short period to use the pencil and brush with freedam and skill, and to take such sketches of nature as prove to them and to all, that she fulfills all which she promises, even in these cases when a natural taste for these arts has not been

upposed to exist.

CONCLUSIVE PROOF

OF THE EXTRAORDINARY EFFICACY OF WISTAR'S BALSAM OF WILD CHERRY.

Haddonfield, New-Jersey, April 20, 1843.

On or about the 13th day of October, 1841, I was taken with a violent pain in the side near the liver, which continued for about five days, and was followed by the breaking of an ulcer, or something in wardly, which relieved the pain a little, but caused me to throw up a great quantity of offensive matter and also much blood. Being greatly alarmed at this, I applied to a physician, but he said he though he could do but little for me except give me some Mercury Pills, which I refused to take, feeling satisfied they could do me no good;—many other remedies were then procured by my wife and friends, but none done me any good, and the discharge of blood and corruption still continued every few days, and at last became so offensive I could scarcely breathe. I was also seized with a violent cough, which at times caused me to raise much more blood than I had done before, and my disease continued in this way, still growing worse until February, when all hopes of my recovery were given up, and my friends all thought I would die of a galloping consumption. At this moment, when my life was apparently drawing near its close, I heard of Dr. Wistar's Balsam of Wild Cherry and got a bottle, which relieved me immediately, and by the use of only three bottles of this medicine, all my pains were removed, my cough and splitting of blood and corruption entirely stopped, and in a few weeks my health was so far restored as to enable me to work at my trade (which is a carpenter) and up to this tima I have enjoyed good health.
